LIFE PURPOSE

To facilitate healthy whole systems change in people, organizations and technology, toward sustainable human evolution.

WORK EXPERIENCE

1986-now *Macintosh Technology Consultant* — USA and New Zealand

Technology consulting on all aspects of Macintosh personal computer systems for home and business, including hardware, software, wireless networking, Filemaker Pro database design, desktop publishing, document/book editing/layout, website design, one-on-one training, and system analysis. Also fluent in Adobe and Microsoft products, including CS Suite and MS Office. Comfortable on all Windows products if needed.

2003-now *5 Deep Boulder/Spiral Dynamics Integral* — Boulder, CO and New Zealand

Support and consult for Spiral Dynamics Group and OnlinePeopleSCAN assessment systems worldwide. Provide Spiral Dynamics Integral training and consulting and authentic leadership coaching to organizations and professionals worldwide.

2006-2008 *Community Services Support* — Aliveware, Ltd., Boulder, CO and Auckland, New Zealand

Supporting a one-of-a-kind combination of expert guidance, online communities and personal organizer tools in the form of a web 2.0 application called Aliveworld. <http://www.aliveworld.com>

2000-2003 *Administrative Director* — All Seasons Chalice, Boulder CO 80306-2180

Responsible for designing and implementing day-to-day administration of a 501.c.3 organization incorporated as a church, which stewards The StarHouse, a 12-sided sacred ceremonial building in the Boulder foothills. Led a transformation effort to shift the organization from a single founder/funder to a multi-income, membership-based organization. Duties included: develop organizational structures and software systems for membership and facility use, oversee maintenance and all other aspects of The StarHouse; budget development; maintain financial books; coordinate events, membership, and communication between the Board, employees, Ministers and members. Secretary/Treasurer for 5 years.

1999-2000 *General Contractor* — 151 Wildcat Lane, Boulder CO 80304

Owner/contractor of a 3,000 sq. ft., custom-built 3-bedroom, 3-bath single family residence. Co-designed and managed all aspects of construction. Unique features include: 14" pumicecrete walls; rainwater roof catchment system; 1.8 kW photovoltaic array with 3-day battery backup and utility net metering; hydronic in-floor heating with thermal solar and fireplace hot water heating systems; passive solar design; and energy-efficient appliances. Construction time from ground-breaking to occupancy was one year.

1994-1995 *Director of Computing* — Alexander Dawson School, Lafayette CO 80026

Overall supervision and organization of 100 networked computers for private school grades 6-12. Hardware/software support on Macintosh (95%), DOS, Ethernet, Localtalk, Novell, e-mail and Internet. Managed network planning, hardware/software purchases, training & maintenance.

1992-1993 *Meeting Facilitator* — The Emissaries, Corona CA 91719

Facilitated group change process for the intentional community I lived in for three years. Average group size ranged from 20 to 50 people. Coordinated agendas, led group through problem-solving and community-building processes at weekly and regional meetings.

1990-1993 *Telecommunications Manager* — Glen Ivy Hot Springs, Corona CA 91719

Maintained Macintosh and DOS-based microcomputer systems, and AT&T telephone system. Also in charge of graphic design department utilizing Macintosh-based platform (Pagemaker, Illustrator, etc.). Responsibilities included coordinating all print media, advertising, and design of 18-page newspaper.

1983-1984 *Alternative Energy Technician/Programmer* — Davis, CA

Computer programmer for solar energy consultants Enercomp and Davis Energy Group, specializing in computer modeling of residential building energy use. Coordinated on-site installation of computer data monitoring system at Altamonte Pass Windfarm.

EDUCATION

1995-1996 *Graduate work in Environmental Leadership* — The Naropa Institute (now University), Boulder, CO.
Co-designed and edited the first volume of "The Many Voices of the Boulder Creek Watershed."

1982 *B.S. Engineering Science* — Summa Cum Laude. California Polytechnic State University, San Luis Obispo, CA. Specialized in Solar Engineering, Solid-state Physics and Computer Science.
